

Endless Life

The Verve

Drink the water to ease my pain
Nights like these I only read about
Nights like these I only dreamt about As we turned, as we rolled
I felt something strange
I felt you Something light
Something so bright
I think it was the way of things
I think it was the way of things Back, come back again
Get me a life
Get me a life
And see it in everything Through the dim light
Through those dim lights
I've fallen, I'm falling, falling, falling, falling
In the endless life Endless life, endless life
Endless life, endless life
Endless life, endless life
Endless life, endless life Endless life, endless life
Endless life, endless life
Endless life, endless life
Endless life, endless life
