

Elvis Is Dead

MxPx

That voice inside my brain
Elvis talking to me again
I think I'm going insane
He says that he's my friend But I know what he said
Is a lie 'cause Elvis is dead
Now I know what I see
Can't be him 'cause this guy's skinny Why can't I see that Elvis is dead
And I oughta know it
Need to change, way too strange
And I shouldn't show it I got too much time to drink
And no Coke to think
Elvis talked to me today
He told me what to say I know what he said
Is a lie 'cause Elvis is dead
Now I know what I see
Can't be him 'cause this guy's skinny Why can't I see that Elvis is dead
And I oughta know it
Need to change, way too strange
And I shouldn't show it
