

# Flesh And Bone (SUCK Trailer - Director's Cut)

## Burning Brides

Has the terrible danger that surrounds us  
Become like a drug?  
Are we more like strangers in a glass house  
We're rich with the bloodHow can you leave the black out?  
You're only flesh and bone  
Flesh and boneWhen a blanket of winter is all around us  
We have to stay warm  
When there's no one there you can count on  
You have to transformHow can you leave the black out?  
How can you leave the black out?  
You're only flesh and bone  
Flesh and bone  
Flesh and bone  
Flesh and bone
