

Chasing You

Seven Mary Three

No communication with you
Words don't believe the things they mean
Mean what you say, say who you are No communication with you
This silence is thick but listen close
I'm crawling [Incomprehensible] radio And I can't keep a thought
Am I chasing you, chasing you out?
Chasing you, chasing you out No communication with you
Tired of things we can't control
We want them fixed, compatible No communication with you
The moment you leave the truth explodes
From underneath her hiding place I can't keep a thought
Am I chasing you, chasing you out?
Chasing you, chasing you out
Chasing you, chasing you out
Chasing you, chasing you out It's make believe, it's make believe
It's in your mind, it's in your mind
Always in your mind, always in your mind It's deafening, it's deafening
Distance between, distance between
You and I can't keep a thought
Am I chasing you, chasing you out?
Chasing you, chasing you out
Chasing you, chasing you out
Chasing you, chasing you out
Chasing you, chasing you out
