The Things You Said to Me

The Mavericks

You said you'd always be true
As long as I were to you
If I should start runnin' around
The string I wrapped around your heart would then become unwoundI kept my promise till the end
But you broke my heart once again
Guess I was just too blind to see
What a fool I was to listen to the things you said to meBut I'm lonely
I can't help it I'm lonely
No matter how hard
I try to forget
I've got a heartache
And I know it's too late
I've been deceived
'Cause darlin' I believed
The things you said to me
Aah!On someday you just may be the one
Who's gonna wonder what went wrong?
When you're all alone just think of me
When no one else will listen to the things you said to meBut I'm lonely
I can't help it I'm lonely
No matter how hard
I try to forget
I've got a heartache
And I know it's too late
I've been deceived
'Cause darlin' I believed
The things you said to meThe things you said to me
The things you said to me
The things you said to me
...
