Real Enemy

The Business

Reality punk is all together
The real enemy, the real enemy
Fighting each other, it just ain't clever
The real enemy, the real enemyYou've got the wrong enemy picking on a friend
The real enemy, the real enemy
If we don't stand together then this is the end
The real enemy, the real enemyToday's youth stand together
The real enemy, the real enemy
In your combat or in your leather
The real enemy, the real enemyThere's a cause, a cause to fight
The real enemy, the real enemy
Not each other, we must unite
The real enemy, the real enemyFight the real enemy
Fight the real enemy
Fight the real enemy
Fight the real enemyBanned from the pubs every night
The real enemy, the real enemy
Same old story, will you ever see the light?
The real enemy, the real enemyEveryone together, now listen to me
The real enemy, the real enemy
Don't fight each other, fight the real enemy
The real enemy, the real enemy
