

A.D.D.

Spiderbait

I'm bouncing round like a jumping bean
A gymnast on pseudoephedrine
I'm gonna make a mess gonna cause a scene
They're gonna have to hook me up to their machine
A detonated bomb with PMT
A blood sugar insulin deficiency
An overdose on hyperactivity
Hyped to the hilt on red colouringGive me what I'm after
I don't wanna stop
Give me what I'm after
Right now, right nowI'm flying round the room like a honey bee
you better not try to keep up with me
A hyper seizure multi-personality a social experimernt in chemistry
I'm bulgin at the eyes with preservatives
I'm scratching at the door for additives
Open up the drawer get the ridalin and ADD supervitaminsGive me what I'm after
I don't wanna stop
Give me what I'm after
Right now, right now
