

Worship the King

Planetshakers

Walking down this road called life
Thinking how my world has changed
Since I met the saving grace
Of the man they called Jesus Christ
No, He's not just an ordinary guy
He is supernatural in all ways
He's not just in my imagination
He is real in every way
I will stand in awe
Worship the King of glory
Open up the doors, lift up the gates
The King of glory, may He enter in
May His power fall, may His glory fill all the earth
People come and people go
Something's in and then it's out
One thing that remains the same
Is the love I've found in Jesus Christ
No, He's not just an ordinary guy
He is supernatural in all ways
He's not just in my imagination
He is real in every way
I will stand in awe
Worship the King of glory
Open up the doors, lift up the gates
The King of glory, may He enter in
May His power fall, may His glory fill all the earth
I will stand in awe
Worship the King of glory
Open up the doors, lift up the gates
The King of glory, may He enter in
May His power fall, may His glory fill
Worship the King of glory
Open up the doors, lift up the gates
The King of glory, may He enter in
May His power fall, may His glory fill all the earth
All the earth
May Your glory fill the earth
And the whole world
Let Your glory fill
All the earth
