

Made It Back

Beverley Knight

Written By Knight/Drakes/Shorten/NobleFrom a place that had no meaning

From the wilderness of time

To the land of new beginning

Starting with a new design

Never doubted for a second

That I'd do it on my own

And I held onto my corner

Trusted in the things I knowYou will never feel

How good it is to love me

Rather than control me

I don't need the world weighing down my shoulders

But that's all over here I amI made it back

From a place called nowhere

I made it back

To do this once again

I made it back

From a place called nowhere

I made it back

Once again I made it backGot a chance to fix up neatly

Set it off and not too late

Saw the light and walked towards it

I'm the master of my fate

Coming up just wasn't easy

It took all the strength I had

Now I'm ready for the action

Mamma got a brand nu bagYou will never feel

How good it is to love me

Rather than control me

I don't need the world weighing down my shoulders

But that's all over here I amChorus (x2)Flava, flava, flava

Brand new flava, flava flava
