

# Snowstorm

## Samples

Well, I listen to the weather  
And he's changed his tone of voice  
And he can see it on the radar  
Only seven hours away Well, there's gonna be a snowstorm  
When the TV's goin' out  
And they got nothin' else to think of  
And they're letting me go home Well, I'm lookin' at the snowflakes  
They all look the same  
And the clouds are goin' by me  
They're playin' some kind of game Well, you know there's a snowstorm  
When the TV has gone out  
And they got nothin' else to think of  
And they're letting me go home
