

Best Party Ever (So Far)

Brite Futures

No one can't tell me nothing
I see the sun rise in the morning
Everybody round me's buzzin
I've turned 16
Let's go! Let's go!It's a party, you're invited
Everybody's so excited(Unintelligible)
(Unintelligible)
Call in and say it's a job to do
(Unintelligible)
Oh oh oh oh
Ah ah ah ahCan't believe my eyes
Party girls and guys
Robbing on the go
Tear this place down down downIt's a party, you're invited
Everybody's so excitedFloating
On a cloud of golden
Rays of sunshine
Losing
My ego boundary's crazy
I might fall down nowIt's a party kingdom
I'm the Queen of being good
Everyone's been saying
It's the best party ever so far so farGotta catch my breath ah ah
Let's sit down on the steps ah ah
God I really got to rest ah ah
This party is the best ever so far!It's a party, you're invited
Everybody's so excitedIt's a party, you're invited
Everybody's so excitedBest party ever so far!
Best party ever so far!
Best party ever so far!
Best party ever so far!
