Touch Of Madness

Night Ranger

She wakes in the morning
Got a smile on her face
She's not sentimental
About her night's embrace
Another lucky day
Lucky night on the town
Man he got the touch
I say she wears the crown
She say
"I get high when I want to
Don't ya think you need it too?"
I need a touch, I need a touch of madness
I need a touch, I need a touch of madness
She changes by night
It's a crime in the street
She dazzles the boys
As she moves though the heat
Set out all alone
On a hot summer night
Man she got the touch
She makes you sweat all night
She say
"I get wild when I want to
Madness is the thing to do"
I need a touch, I need a touch of madness
I need a touch, I need a touch of madness
I need a touch, I need a touch of madness
I wake in the morning
With a smile on my face
Never sentimental
About my night's embrace
Another lucky day
Lucky night on the town
Now I got the touch
Now I make the rounds
I say
"I get off when I want to
Don't you want to feel it too?"
I need a touch, I need a touch of madness

I need a touch, I need a touch of madness
I need a touch, I need a touch
I need a touch, I need a touch of madness
