

# Freezing

## Sugarcult

Across the city you'll sleep alone, I followed  
Lying wide awake until it comes, tomorrowAnd you're the one who cared enough to break the plans made for  
usYou're freezing up  
You're freezing  
And you're freezing up with no good reason againYou're freezing up  
You're freezing  
You're freezing up with no good reason again
