

Township (Not Sure)

Teen Men

Not sure if you're already wrung
Not sure if the sun dries your clothes
Not sure of your plans months from now
Not sure if you're travelling alone
Not sure of the mack in the hotel
Not sure really how old you are
Not sure why we're sleeping on the floor
Not really sure of the night though we never were Just so long as you bat your eyes at me
We'll let the night roll on
Let the night roll on Not sure of yourself when you're young
Not sure if you're dreams gonna come
Not sure if its something you fell for
Not even sure if they exist anymore
Not sure if you can lie to yourself
Not sure if you can shake it off
Not sure if you can lose the allure
Not really sure of the night though we never were Just so long as you bat your eyes at me and let the night roll on
Slip through time, lost mind
But still your eyes they let the night roll on
Let the night roll on I'd like to see where you're from
I'd like to show you the street i grew up on
these things require the sun
but nothing I could do would fight the light for once Just so long as you bat your eyes at me and let the night roll
on, let the night roll on
Slip through time, lost mind
But still your eyes they let the night roll on
Let the night roll on Just so long as you bat your eyes at me
let the night roll on
let the night roll on
Slip through time, lost mind
But still your eyes they let the night roll on
Let the night roll on
