

Don't You Love Me

[Jamie Lidell](#)

You can make it up?
Cause theres nothing broke we cant repair
You can make it up first base?
Cause tearin up this love aint fair(Chorus):
Dont you love me, dont you love me anymore?
Dont you love me anymore?
Dont you love me anymore?
Please say
Say it aint soWeve been making up a ton
Running into the same things everyday
We need a new direction
Cause sooner? we can go on this way(Chorus)?
Baby just not there
Got a million things to get
Baby you just wont share
Tryin to meet your eyes and all I get is your cold stare
?
Show me if you carePlease, say, say you love me baby
Aw, just dont say youre leaving me aloneManifest go changin
Baby lets embrace that change
No matter what that change is
Lovin for you, it stays the same
So lets change it up
