

Falling in Love (with My Best Friend)

Matt White

It's so good
What we got
You and me
We laugh a lot

We're just friends
Simple as that
I don't want it to end
But I'm falling in love with the best friend I got

[CHORUS]

They say you don't really wanna fall in love
You don't really wanna mess this up
You don't really wanna fall in love
'Cause fallin' in love just breaks your heart (hey, hey!)

If we kiss
If we touch
All of this
Could get rough

Ain't no thing
Ain't no strings
Ain't no "I love you, you love me"
We won't get caught up in the stuff that breaks (oh, no)

[CHORUS]

They say you don't really wanna fall in love
You don't really wanna mess this up
You don't really wanna fall in love
'Cause fallin' in love just breaks your heart (hey, hey!)

[CHORUS]

They say you don't really wanna fall in love
You don't really wanna mess this up
You don't really want to fall in love
'Cause fallin' in love just breaks your heart (hey, hey!)

You don't really wanna fall in love
You don't really wanna mess this up

You don't really wanna fall in love
'Cause fallin' in love just breaks your heart
Fallin' in love just breaks your heart
Fallin' in love just breaks your heart
Fallin' in love just broke my heart
