Take a Good Look

Avoid One Thing

Take a good look it's the last time you'll see me
Hanging around here
I spent all my money filling the tank up
Or I'd buy you a beerDoes anyone know what happened
To the better part of the last ten years
The pictures I've been packing up
All seem to have been taken right hereTake a good look its the last time you'll see me
Bumming a beer
I'd hate to think that I'm gonna get lonely
Living down thereDo any of you lovely ladies feel like drinking
A little closer to the ocean
It's getting late and I'm starting to think just maybe
I'm in no conditionTake a good look
It's the last time you'll see me asleep in my car
Laugh clown laugh at Joey
He didn't get farDoes anyone know what happened
To the better part of the last ten years
The pictures I've been packing up
All seem to have been taken right here
