

# Kiss And Kill

## The Freeze

She's got me crawling back inside Myself  
She's got me worried about my Mental health

Thoughts out of sequence

I don't know why

She's got me feeling like I wanna die

She gets me down and she Scans for weakness

Using X-Ray eyes

When it's found She'll caress that weakness

And with a good girl smile She makes it all worthwhile

She's got me buried under Mounds of guilt

She told me losing is my Only skill

Took a restraining order I don't know why

But i keep feeling Like she wants me to die

She gets me down and she Scans for weakness

With her X-Ray eyes

When it's found She'll undress my weakness

And with a sex crazed smile

She makes it all worthwhile

I've finished crawling back Inside myself

I'll let them worry about my Mental Health

Thoughts are in sequence Now i know why

I'm getting ready cuz I'm going to die

She's got me

She's got me

She's got me

She's got me
