

# The State of Texas vs. Fear Before

## Fear Before The March Of Flames

Oh yeah. Thank God. I could use a companion.  
To hell or bust. I could use a companion. They haven't found her body, but they're onto me I'm sorry to drag you  
in, but I had no choice  
I said I was sorry, so stop crying  
I said I was sorry, so stop crying The authority lives for the thrill of the chase  
But they'll never catch me The authority lives for the thrill of the chase  
But they'll never catch me The authority lives for the thrill of the chase  
But they'll never catch me The authority lives for the thrill of the chase  
But they'll never catch me Cheer up honey, don't cry.  
Cheer up honey, don't cry. You don't get to cry I cleaned up after myself. I tied up my loose ends. With a full  
tank we can make it to the border  
With a full tank we can make it to the border Where I'll change my name and they'll crown me king  
Where I'll change my name and they'll crown me king  
Where I'll change my name and they'll crown me king  
Where I'll change my name and they'll crown me king  
I may be sick  
I may be sick  
I may be sick  
I may be SICK The authority lives for the thrill of the chase.  
But they'll never catch me The authority lives for the thrill of the chase.  
But they'll never catch me The authority lives for the thrill of the chase.  
But they'll never catch me  
The authority lives for the thrill of the chase.  
But they'll never catch me
