# Novocaine

## Fit For Rivals

Baby, it's alright, alright
Somehow we're gonna get to the bottom of this
If it takes us all night, all night
We'll work it till we find that something that fits
Come on, let me kiss and make it better
And better ain't the best I can do
I'll take your wrong and make it right
I'll take your load and make it light
Dry your eyes and you can bet
Any hurt that you remember gonna help you forget
Make you numb to the pain
Hey, I'll be your novocaine
We'll have us a good time, good time
Baby, let me pull you out of the shade
Meet me in the sunshine, sunshine
Do you wanna come out and play?
Baby, there's been a lot of talkin'
Talkin' ain't all I wanna do
I'll take your wrong and make it right
I'll take your load and make it light
Dry your eyes and you can bet
Any hurt that you remember gonna help you forget

Make you numb to the pain
Hey, I'll be your novocaine
Come on, let me kiss and make it better
And better ain't the best I can do
I'll take your wrong and make it right
I'll take your load and make it light
Dry your eyes and you can bet
Any hurt that you remember gonna help you forget
Make you numb to the pain
Hey, I'll take your wrong and make it right
I'll take your load and make it light
Dry your eyes and you can bet
Any hurt that you remember gonna help you forget
Make you numb to the pain
Hey, I'll be your novocaine
Make you numb to the pain

Hey, I'll be your novocaine
Make you numb to the pain
Hey, I'll be your novocaine
