

Face the Music (Erick Muisue Remix)

Conjure One

Gravity is a factor
Feel it pulling you in
It gets under your skin
And do just sink in
When the past is an anchor
It's just holding you back
When you can walk away

Something makes you stay, makes you stay What makes you turn around and do it all again?

Your highs and lows they are but one in the same
There is no difference in your pleasure and your pain
It's time to face the music You can see what you can be
Let go of what you have been
See the world through a different set of eyes
If you can face the future
It sets you free from the past
Turn around, turn around

You can move on, move on What makes you turn around and do it all again?

Your highs and lows they are both one in the same
There is no difference in your pleasure and your pain
It's time to face the music It's time to face the music [Repeat x2] What makes you turn around and do it all again?
Your highs and lows they are both one in the same
There is no difference in your pleasure and your pain
It's time to face the music [Repeat x2] If you can face the future
It sets you free from the past
Turn around, turn around
You can move on, move on
