

# Curtains

## Janet Jackson

Ah, you seen my show, you followed my tour  
I heard you scream with eighty thousand more  
But tonight, I close up my tour in your room  
Know I pull 'em out of the crowd and guess who  
The band is in place, the cameras are set  
I make sure we tape it so you don't forget  
I'ma take control, take it slow so don't move  
It's 'bout to go down so just wait for my cue  
House lights go low, spotlight up more  
It's time so just sit back and enjoy the show  
Time to close the curtains  
Come on in the stage is set  
Before the show starts mic check  
Tonight is so exclusive  
We should make it Pay-Per-View  
Time to close the curtains  
I only take requests from you  
Just tell me what you want me to do  
I promise you, you'll be screaming  
Out at home when I'm through  
Let's change the set, try some new steps  
Let's take it somewhere we haven't been yet  
It's gonna be kinda hard 'cause I can't always bring you  
The crowd is screaming out I want more I hear you  
How is your seat, can you see everything?  
Baby, I don't want you miss anything  
I'm a dedicate this next one to you  
'Cause you my number one fan and I'm showing you love  
House lights go low, spotlight up more  
It's time so just sit back and enjoy the show  
Time to close the curtains  
Come on in the stage is set  
Before the show starts mic check  
Tonight is so exclusive  
We should make it Pay-Per-View  
Time to close the curtains  
I only take requests from you  
Just tell me what you want me to do  
I promise you, you'll be screaming  
Out at home when I'm through  
Now's the perfect time for an Intermission  
If you need something to drink  
Better get it by now  
(By now)  
Gotta break it down  
(By now)  
'Cause I don't want some, no more  
Now I call you for the end of the show

Let me slow it down  
I'm not ready to get off  
As the finale's done I'll open the door  
Time to close the curtains  
(To close the curtains, baby)  
Come on in the stage is set  
(Stage is set)  
Before the show starts mic check  
(Baby)  
Tonight is so exclusive  
We should make it Pay-Per-View  
Time to close the curtains  
I only take requests from you  
Just tell me what you want me to do  
I promise you, you'll be screaming  
Out at home when I'm through
