

# It's Not Christmas Without You

**Katharine McPhee**

Years almost over  
Sure looks like December  
The snow and ice on the ground  
I hadn't sent a single Christmas card  
The 31st is coming around  
It makes me remember our last December  
How the city looks so beautiful in white  
As we walked the street that day you kept me warm  
We couldn't wait to get inside

Now its Christmas and you're so far away  
On this Christmas I just wish you had stayed  
And I wonder if you're thinking of me today  
I don't know what I'll do its not Christmas without you

I hear carols in the distance  
Don't want to listen because every sound says your not here  
Just in case you change your mind I'll leave a light over the door  
And hope you suddenly appear

Cuz its Christmas and you're so far away  
On this Christmas I just wish you had stayed  
And I wonder if you're thinking of me today  
I don't know what I'll do its not Christmas without you

I'm too old to believe in Santa Claus  
What are these gifts under the tree  
But I did this once  
Or many it's a dream, has he really brought you back to me  
its Christmas all I wanted is here  
On this Christmas was for you to be near  
And I wonder if you're thinking of me cuz you're here  
My one wish has come true, it's not Christmas without you
