

Fuck You Lucy

Atmosphere

[Women Singing]

"Leave never would you, you show could I If" [x6][Slug]

She say that she still wants a friendship

She can't live her life without me as a friend

I can't figure out why I give a damn to what she wants

I don't understand the now before the then

Most of this garbage I write that these people seem to like

Is about you and how I let you infect my life

And if they got to know you, I doubt that they would see it

They'd wonder what I showed you how you could leave it

A friend in Chicago said that I should stay persistent

If I stay around I'm bound to break resistance

Fuck you Lucy for defining my existence

Fuck you and your differences Ever since I was a young lad with a part-time dad

It was hard to find happiness inside of what I had

I studied my mother, I digested her pain

And vowed no women on my path would have to walk the same

Travel like sound across the fate ladder

I travel with spoon to mix this cake batter

And I travel with feels so I can deal with touch

It's like that, thank you very much, fuck you very much! [Chorus]

(Yes, yes it is)

And everyone in his life would mistake it as love

Everyone in his life would mistake it as love

Everyone in his life would mistake it as love

(Yes, yes it is)

And everyone in his life would mistake it as love

Everyone in his life would mistake it as love

Everyone in his life would mistake it as love [Slug]

Fuck the "what happened?", I got stuck

They can peel pieces of me off the grill of her truck

Used to walk with luck, used to hold her hand

Fell behind then played the role of a slower man

I want to stand on top of this mountain and yell

I want to wake up and break up this lake of hell

I feel like a bitch for letting the she twist me up

The last starfighter is wounded, time to give it up

On a pick it up mission, kept it bitter

Gettin' in a million memories just to forget her

The difficulty in keepin' emotions controlled
Cookies for the road, took me by the soul
Hunger for the drama, hunger for the nurture
Gonna take it further, the hurt feels like murder
Interpret the eyes, read the lines on her face
The sunshine is fake, how much time did I waste?
Fuck you Lucy for leaving me
Fuck you Lucy for not needing me
I wanna say fuck you because I still love you
No, I'm not okay, and I don't know what to do[Chorus]
(Yes, yes it is)
And everyone in his life would mistake it as love
Everyone in his life would mistake it as love
Everyone in his life would mistake it as love
(Yes, yes it is)
And everyone in his life would mistake it as love
Everyone in his life would mistake it as love
Everyone in his life would mistake it as love[Slug]
Do I sound mad? Well I guess I'm a little pissed
Every action has a point, five points make a fist
You close 'em, you swing 'em, it's hurts when it hits
And the truth can be a bitch, but if the boot fits
I got an idea: You should get a tattoo that says "Warning"
That's all, just a warning, so the potential victim can take a left and save breath,
And avoid you, sober and upset in the morning
I wanna scream, "Fuck you Lucy!"
But the problem is I love you Lucy
So instead I'ma finish my drink and have another
While you think about how you used to be my lover[Chorus]
(Yes, yes it is)
And everyone in his life would mistake it as love
Everyone in his life would mistake it as love
Everyone in his life would mistake it as love
(Yes, yes it is)
And everyone in his life would mistake it as love
Everyone in his life would mistake it as love
Everyone in his life would mistake it as love[Women Singing]
"Leave never would you, you show could I If" [x12]
