

Games

New Kids On The Block

Action

Games, games, games, games, games, games

Hey, games

Somebody said somebody wouldn't last too long

Somebody's still going strong

Somebody said somebody was all a front

Somebody's still talking junk

Think of what you say, think of what you do

Think of what you try to put us through

We're just singing our song

When you put us down, it ain't gonna get you nowhere

We're positive and no matter what you think we really care

Games, oh ee oh, ohh, games, games, games, games, games

Somebody said somebody worked too hard

Somebody gotta charm some hearts

Somebody said everybody's gonna wait and see

What's gonna be is gonna be

Think of what you say, think of what you do

Think of what you try to put us through

We're just singing our song

When you put us down, it ain't gonna get you nowhere

We're positive and no matter what you think we really care

Games, oh ee oh, ohh, games, games, games, games, games

Games, oh ee oh, ohh, games, games, games, games, games

Games

Yeah, people keep on fronting on the bean town posse

But it's time to step up to the stand

'Cause we ain't going out like that

Back, huh, stronger than ever, did you think we'd sever?

Never, we're too clever to be taken down clown

By your ignorant state of mind, I ain't blind but

Every time I look I find you dissin' a mission that

Strictly be righteous, we gotta fight this so now I think I might just

Take a stand, man, like never before, and I'm sure

That we'll endure so now it's time to even the score

I hear you knocking me but you ain't shocking me

'Cause jealousy is telling me that you're just jocking me

So keep on talking skee, with pride I'm walking see

Because on any body's block is where I'm gonna be rockin' gee

Don't play those games

Oh ee oh, ohh, stop playing those games

Oh ee oh, ohh, stop playing those games

Oh ee oh, ohh, stop playing those games

Oh ee oh, ohh, you better stop playing those games

Oh ee oh, ohh, stop playing those games
