

Amour

SNDTRKK

I'm thinking where she's gone
If she's up is she home,
All these feelings that I never share
I thought she was bluffing but it's turning something
& Feeling happy cah these times are rare
C-c-call me, call me, call me
When your lonely
C-call me, call me, tell me
That you care

I've was planning out
Thinking bout
when i got a chance to get a minute close to you
Someway somehow
So please tell now
When I get chance for you
To love me, love me, fuck me, love me, fuck me, love me, love me

Lying on the sofa & adventures on the oppstairs
A couple random places
So yeah yeah
From the kitchen to the master
Everything I could of asked for
All these feelings going round me head
C-c-call me, call me, call me
When your lonely
Tell me when & where just the time & the a place... I'm there

I've was planning out
Thinking bout
when i got a chance to get a minute close to you
Someway somehow
So please tell now
When I get chance for you
To love me, love me, fuck me, love me, fuck me, love me, love me

Oooooo oooooo oooooo
Yeah x 2
Slyly feeling like heaven though

Just take it off
