

Nameless

Avail

should have left that attitude
back at home
center of attention
through tension
begging for respect
through the unsaid
resorting to disruption
when you hate something
should have left that attitude
back at home
striving to dominate
to feel safe
showing your strength to
the unknown
you probably won't quit
when you hurt someone
what the hell are you fighting for
i hope that it's something that you really believe in
'cause someone got a fist in their face
because your feeling weak
and your causing all these problems
that nobody needs
don't forget that you're all alone
you've got no good reason
it's just an attitude
