In a Modern World

Fischerspooner

(Everyone on the outside
you've got to get together and go inside
you gotta go inside
c'mon you gotta there's not much time)What's real
what's fake
it's hard to relate
it's impulse
it's all you can trustIt's girls
and beer
that's all I hear
can't get enough
of this American thingAnd we should all give up and never look back like the road you know and just let goI wish you all good luck and never look back like the road you know and just let goIn a modern world
it's hard to be heard
In a modern world
it's hardA dotted line
a cigarette
fill in the blank with my silhouette
it's impulse
it's all you can trustI wish you all good luck and never look back like the road you know and just let goIn a modern world
it's hard to be heard
In a modern world
it's hardIn a modern world
it's hard to use words
In a modern world
it's hard(There's so many of them
but there's so many of us too
Call everybody you know
Text everybody you know
Tell them to meet us up on top of the walls)Put my head in a box
pack it up and ship it off
Put my head in a can
pack it up and tell them who I amIn a modern world
it's hard to be heard
In a modern world
it's hardIn a modern world
it's hard to use words
In a modern world

it's hard(Pack it up and ship it off)Put my head in a can
Pack it up and tell them who I am
Pack it up and tell them who I am
