

# Mind Control

## Tantric

Oh, the line of mass hysteria has turned into a barrier  
For everything that you can use to justify your one excuse  
You need to fight so you feel safe at home  
Don't look behind 'cause you are not alone anymore  
Mind control, gotta keep your head strong  
Mind control, make your own opinion  
You're feeling outta control  
Oh, you're never lacking something new to find new ways of scaring you  
Your questioning, your traveling, your mind they are imprisoning  
You need to fight so you feel safe at home  
Don't look behind 'cause you are not alone anymore  
Mind control, gotta keep your head strong  
Mind control, make your own opinion  
You're feeling outta control  
With all these people putting thought in our heads  
It's hard to step away from what has been said  
Living in fear is really no way to live  
If we see clear and found a way to forget  
Mind control, gotta keep your head strong  
Mind control, make your own opinion, yeah  
Mind control, gotta keep your head strong  
Mind control, make your own opinion  
Mind control, gotta keep your head strong  
Mind control, make your own opinion  
You're feeling outta control
