How Does It Feel

Pretty Maids

See her walking in the street
Big city bitter sweet
Into that poisened rain
She's among familiar faces
In this dirty rotten place
Where only lies remainShe's got the heart of an angel
Her soul open wide
But the hunger has waken the devil inside herWhat is it like on this trip you're rinin' baby
Now don't you see there's no safety in hidin'How does it feel
You've been away too long
Out of touch
Left out on your own
How does it feel
Do you see right from wrong
Lady Lust you're a long way from homeNow she finds her way around
At the lost and never found
She's got to go with the flow
There's a rope around her neck
On the road to her regret
She walks the straight and narrowIn the eyes of the world
She's a nobodys job
A broken down girl
She's stuck on the wild sideWhat's it like on this trip you're ridin' baby
Now don't you see there's no safety in hidin'ChorusSomebody said what you give is what you get
But there's some who gets nothing in return
Out of luck
Down on love
She's getting fed up with anything she doesChorus
