

Everlasting

Sonicflood

The sky will fall
The ground will give
Through it all
You will be faithful Friends may leave
They come and go
This I know
You will be faithful
You will be faithful You will always be the same
Your love will never change
You are the everlasting I will put my trust in you
Forever to be true
You are the everlasting
You are the everlasting When beauty fades
And slips away
For all my days
You will be faithful When I breathe
My final breath
I find my rest in your
Faithfulness 'Cause you will always be the same
Your love will never change
You are the everlasting I will put my trust in you
Forever to be true
You are the everlasting
You are the everlasting When all around us
Is falling into waste
When the earth is dying
You cannot be erased
And I don't have to be afraid You're the alpha and omega
You're forever, everlasting Yeah, I will put my trust in you
Forever to be true
You are the everlasting You will always be the same
Your love will never change
You are the everlasting I will put my trust in you
Forever to be true
You are the everlasting
You are the everlasting
You are the everlasting
