

# The Price We Pay

## Courage Brothers

If you wanna ask me what is wrong, I can't say  
Feeling bad has never felt this good, it's fair to say  
And I'll get by 'cause you remind me  
That's the price we pay for love I'm just happy waiting by myself again today  
Being here reminds me of your smile, so I stay  
And I'll get by 'cause you remind me  
That's the price we pay for love That's the price we pay for love  
The price we pay for love
