Charon

[Music: Hast & SipilÃ¤ & CHARON Lyrics: HautamÃ¤ki]Internal night - I see your stars
A blackended light - eternal scars
Extinguished sky - storm ariseAeon of AiynSwirling winds greeds my end
Time no more, cyclic vortex
Around usSo it has always been
The undone and deceased
never was and never
The WILL and the FAITHSo I have seen the gate is closed
The region of SOUL for no one to know
Behead the minions let the liquid life flowFor what is a salvation for the wicked
Samhains dew the blood of a slain god
SPRING from the fountain of knowledgeCoronation when the moon is full with blood
Ordainer from ebon crown
Wields the sceptre of the proud
