

# Wheels

## Heart

Nights inside the city, empty sidewalks  
Stretching under dizzy lights  
Rain is humming, the streets are running  
Underneath the neon lights We run together, we'll run forever  
Out of here riding the wheels Look at pretty windows and shiny people  
Statues under sparkling lights  
Just take a picture of that melting moment  
Flashing on this crazy ride Just close your eyes now  
And breathe a sigh now We're getting out here  
Out of here riding the wheels  
Riding the wheels Riding the wheels  
Riding the wheels  
Riding the wheels Riding the wheels Out of here riding the wheels  
Riding the wheels  
Riding the wheels  
Riding the wheels Riding the wheels  
Riding the wheels  
Riding the wheels Riding the wheels
