

# Whales

## Dalai Lama

They're singing songs like us  
Why don't we communicate  
Their lifestyle is floating  
Remember, they're like us  
They're coming from afar  
Remember, they're astral  
What is wrong with their orientation  
Where is the error? ?  
What do we know of their orientation  
Tell me why do whales run ashore? ?  
We're living like islands  
No neighbours to talk or play with  
The ocean is endless  
There's liquid forever  
Our race is so lonely  
We're stranded, they landed, tell me..What is wrong with our orientation  
Where is the error? ?  
What do we know of our orientation..We're stranded, they landed..  
We need someone to talk to!!!
