## Aborted

[music: nick, aborted; lyrics: nick]A  
braising your eye socket walls  
imploding your eyeballs  
orgasm piercing through your brain  
shining cum, perforating painI pull the trigger and I cum  
with your head spreaed on my gun  
observe the metal coming near  
the gory end of your moral fearRiot-fuck the faecial breed  
Hallowed be this cleansing dead  
Frightened face splits wide open  
Sickly pleased I shoot againCranium spread all over the floor  
Chunks of brain slide from the door  
i could kill every last one of youSkullfuck you all is what I'll do
