

With Love

Christina Grimmie

You called me out and taught me tough
With love, with love.
You fought my flaws, my teeth, my claws
With love, with love.
Cause every time i'm slipping away from myself,
You're the one that moves me like nobody else. Cause when i'm down and i'm done,
And i'm coming unplugged
When i'm ready to fall
You're the one always holding me up
With love Oh no no Your tongue won't tie, you'll always find
The truth yeah you do
But still you smile despite the lines
I drew for you Cause every time i'm slipping away from myself,
You're the one that moves me like nobody else. Cause when i'm down and i'm done,
And i'm coming unplugged
When i'm ready to fall
You're the one always holding me up
With love Love, Love, Love, Love Cause when i'm down and i'm done,
And i'm coming unplugged
When i'm ready to fall
You're the one always holding me up
With love Cause when i'm down and i'm done,
And i'm coming unplugged
When i'm ready to fall
You're the one always holding me up
With love
