

Key's In The Conch Shell

[Kenny Chesney](#)

It's the third thatched roof on the right
Right beside crystal blue water
First wave of the day, almost got away
But my sailboard caught her Funny when you called
I was thinking how good it'd be to see you again
The key's in the conch shell, come on in Been here about a month
Not doing much of nothin at all
Dogging Man O' Wars
Man, it's hard to get bored when you're having a ball Make yourself at home
There's a good chance I'll be gone reelin' one in
Girl, the key's in the conch shell, come on in Don't bring nothin' but that sunshine smile
Come on baby stay awhile, stay awhile My favorite bar's in view
Worked there a day or two just to cover my tab
And other than that
Ain't cost me a dime for the time I've had The only thing I need
Is some company from where have you been
Girl, the key's in the conch shell, come on in Make yourself at home
There's a good chance I'll be gone reelin' one in
Girl, the key's in the conch shell, come on in
