

# More Of This

## Vetiver

Sometimes I feel there's nothin' I can do  
To make up for my wrongs to you  
Should I drive along now I wish I had more of this, less to miss  
Now is the right time, swing the base  
And sing the praises of the love so fine It won't be long before I have to leave  
Knowing that I could use more time alone with you  
That just might carry me through You could've said no  
I have expected so  
But instead you understood  
Time waits for no man I wish I had more of this, less to miss  
Now is the right time  
Our love is more than enough  
To calm my troubled mind It won't be long before I have to leave  
Knowing that I could use more time alone with you  
That just might carry me through More of this, less to miss  
Now is the right time to swing the base  
And sing the praises of the love so fine It won't be long before I have to leave  
Knowing that I could use more time alone with you  
That just might carry me through It won't be long before I have to leave  
Knowing that I could use more time alone with you  
That just might carry me through It won't be long before I have to leave  
Knowing that I could use more time alone with you  
That just might carry me through It won't be long before I have to leave  
Knowing that I could use more time alone with you  
That just might carry me through It won't be long before I have to leave  
Knowing that I could use more time alone with you
