

# Seize the Day

Lucina

Even when you're thinking that you're losing  
Look around, I know it seems confusing  
Now and then I know things they seem so far  
Cos every time I look into the mirror  
I walk away why won't things just be clearer  
There are things that I just need to know  
If the barriers up  
I will never give up  
I can only get stronger  
Don't you dare throw in the towel or fold  
Never mind what people may say  
C'est la vie just seize the day ay ay...  
Don't you mind what other people may say  
C'est la vie just seize the day  
The mirror cracks and everything it goes wrong  
Piece it together and just try to stay strong  
Conceal the cracks and just put on a smile  
Everyday it seems like you're bruising  
It's down to you and the life that you're choosing  
Only you can turn this ship around  
If the barriers up  
I will never give up  
I can only get stronger  
Don't you dare throw in the towel or fold  
Never mind what people may say  
C'est la vie just seize the day ay ay...  
Don't you mind what other people may say  
C'est la vie just seize the day  
Seize the day  
Seize the day  
Don't you dare throw in the towel or fold  
Never mind what people may say  
C'est la vie just seize the day ay ay...  
Don't you mind what other people may say  
C'est la vie just seize the daaaay  
Don't you mind what other people may say  
C'est la vie just seize the day
