

Stay Awake

Julie Andrews and Dick Van Dyke

I could fall in love with you
But it's not my fault
'Cause you are the prettiest thing I've seen
When you're fallen asleep in my arms
 Oh my, oh my, oh my
 So just stay awake for me
 'Cause I can't fall asleep
 So just stay awake for me
 I'll give you anything
To just stay awake, make love to me
 So maybe all you'll ever need
 Is right inside these arms
Whole and you're so damn tired and conditional
As you're fallen asleep in the dark
 Oh I, oh my, oh my
 So just stay awake for me
 'Cause I can't fall asleep
 So just stay awake for me
 I'll give you anything
To just stay awake and make love to me
 There's nothing I won't try
 To keep your body close to mine
 And baby, hold on tight
 It's a wild open ride
 Give me all you got tonight
And stay awake with me, stay awake
 Give it all you got
 Just stay awake for me
 'Cause I can't fall asleep
 So just stay awake for me
 I'll give you anything
To just stay awake, make love to me
Oh, just stay awake, make love to me
 Make love to me
 Make love to me
 Make love to me
