

# Someday We're Gonna Love Again

**Barbara Lewis**

When we broke up, I acted sad  
I made pretend that you had hurt me bad  
You ate my heart, I grinned, I held up my chin  
Because I knew someday we're gonna love again  
Someday we're gonna love again  
(scat singing alternating with title)I didn't know you got it when you left  
I knew that I could take care of myself  
You wouldn't be gone long, nothing could go wrong  
Because I knew someday were' gonna love again  
Someday we're gonna love again  
(scat singing alternating with title)You just told me that your love had changed  
& that's why I'd love to arrange  
To see you again, I don't know when  
But I do know someday we're gonna love again  
Someday we're gonna love again  
(scat singing alternating with title, fading out)
