

# Broken Promise Land

Claire

We built this city with our hands  
And called it broken promise land  
I heard the whispers on the wind  
They told me how all this would end  
Pick a point on the horizon  
Don't stop until it's gone  
Pick a point on the horizon  
Let's take a loan out on our hearts  
And give a piece back every day  
I wave my flag but no one sees  
Let's dream ourselves away from here  
Pick a point on the horizon  
Don't stop until it's gone  
Pick a point on the horizon  
Pick a point on the horizon  
Don't stop until it's gone  
Pick a point on the horizon  
Pick a point on the horizon  
Don't stop until it's gone  
Pick a point on the horizon  
Pick a point on the horizon
