

Revenge

Fiction Plane

Burn the shops, oh don't think it over
Kill the cops, oh don't think it over
Steal the lot, oh don't think it over
Let's show 'em what we got
In this lawless country we run free and we are jolly
We have no long term depression instead we have revenge
A man in black apparently killed my uncle's uncle
That's what I heard from some itinerant kid
So we send down a band of happy brothers
And they burned him till he could no longer beg
This is real democracy, this is what the people want
Put your feelings into action, a statement of intent
We speak clearly
You will know just what we meant
Revenge
We'll smash the parking meters, so the lawyers won't defeat us
They held us slave to taxes, we've come to grind our axes
At the customer service center they're trying to drive us mental
Let's take it back to fundamentals
This is real democracy, this is what the people want
Put your feelings into action, no paperwork distraction
We speak clearly
You will know just what we meant
Revenge
You won't believe your eyes
No more diplomatic lies
No intermediary body working to fudge one eye for a eye
C'mon
It's there in the window that thing you've always wanted
Just take it
Burn the shops, oh don't think it over
Kill the cops, oh don't think it over
Steal the lot, oh don't think it over
Let's show 'em what we've got
This is real democracy, this is what the people want
Put your feelings into action, a statement of intent
We speak clearly
You will know just what we meant
Revenge
