

Rio Rio (feat. B.o.B)

Ester Dean

Let me take u to Rio
Let me take u to Rio
Let me take you up, take you high
Take you far in the skyline
Let me take you, won't let me take u to Rio!!Rio de janeiro, just let the weather bout
Don't wait for the moment, it's everywhere that we go
Don't worry about the future 'cause really you never know
Trust yourself, no one will tell you which way shouldn't go
All the time, most of the time, somebody time, nothing of mine
Under the sun,
Someone smile
Weather's bad, weather not in the time
Nothing but blue skies I deal with the clouds
My GodLet me take u to Rio
Fly over the ocean like an eagle
And we can chillin like gazebo,
Oooh oh oh, na na na
Let me take u to Rio
Fly over the ocean like an eagle
And we can chillin like gazebo,
Oooh oh oh, na na naShow you a life that never experienced
Open your mind up and witness the limitless
Some things come easy, but some are the trickiest
Learn to relax and quit being so serious
Seriously, life is mysterious
It appears to be so simple but also ambiguous
All we can do is indure the void, and suck it up
All of the incredible view from the ocean up above!Let me take u to Rio
Fly over the ocean like an eagle
And we can chillin like gazebo,
Oooh oh oh, na na na
Let me take u to Rio
Fly over the ocean like an eagle
And we can chillin like gazebo,
Oooh oh oh, na na naCheck it in advance, wanna go slow
Oh, just move your body
Welcome to the floor
Let you body go na na na
Oooh oh!!Let me take u to Rio

Fly over the ocean like an eagle
And we can chillin like gazebo,
Oooh oh oh, na na na
Let me take u to Rio
Fly over the ocean like an eagle
And we can chillin like gazebo,
Oooh oh oh, na na na
