

# Young Criminals

## U.K. Subs

Police harass you everywhere you go  
You need a place you can call your own  
Down in the city street police take you for a beat  
They can't get you bust, they'll have you with SUS  
You're a young criminal on the street  
Young criminal feel the heat  
Say goodbye to the world outside  
They don't care if you live or die  
You're in a fire and you're about to fry  
No one's gonna listen, who's gonna hear you cry?  
You're a young criminal on the street  
Young criminal feel the heat  
Got you where they want you, stuck inside a cage  
You're just a victim of the modern age  
You fought the system but the system won  
And when you come out make sure you have a gun  
You're a young criminal on the street  
Young criminal feel the heat
