High Off Life

Wzrd

New York loft to the condo in Chicago
Out in LA I got the house in the hills
Hand out the window, feel the wind on my fingertips
Cruisin' cruisin' I'm on my way
Searchin' searchin' I need to find some more of it
New things and new places to go
Fiendin' fiendin' ohh I want another hit
It takes me up and I never come down
[x2:]I never ever thought it could be
Never thought the day would come for me
When I would be high off life
Ohhh there's so much I haven't seen
Hey momma I'm livin' la vida
No need to worry 'bout your baby no more
I am feelin' the rush taking hits up off experience
Floatin' floatin' I am on my way

Searchin' searchin' I need to find some more of it
New things and new places to go
Fiendin' fiendin' ohh I want another hit
It takes me up and I never come down
[x2:]I never ever thought it could be
Never thought the day would come for me
When I would be high off life
Ohhh there's so much I haven't seen
[x4:]Help me, help me, help me, help me, help me, help me
I'm ODin', I'm ODin', I'm ODin' off the life (say it)
[x4:]I never ever thought it could be
Never thought the day would come for me
When I would be high off life
Ohhh there's so much I haven't seen
