

X You (feat. Wailin')

[Avicii](#)

I need to feel that radio activity
Won't you too be the heart beat inside of me?
Yeah, I need to feel that radio activity
Come with me, this is the sound of the young and free! I need to feel that radio activity
Won't you too be the heart beat inside of me?
Yeah, I need to feel that radio activity
Come with me, this is the sound of the young and free! I need to feel that radio activity
Won't you too be the heart beat inside of me?
Yeah, I need to feel that radio activity
Come with me, this is the sound of the young and free!
This is the song of the young and free!
Come with me, this is the sound of the young and free!
