

My Poor Brain

Foo Fighters

Real life is so hard
We hide in the stars
That's where our heads are
My head and your heart

This is a blackout
Don't let it go to waste
This is a blackout
I want to detonate

When you are so far
I'm falling part
Lose all my sonar
You jam my radar

This is a blackout
Don't let it go to waste
This is a blackout
I want to detonate

Sometimes I feel I'm getting stuck
Between the handshake and the fuck
You've got me on guard
I've got my head start
My head and your heart
The same in the stars

This is a blackout
Don't let it go to waste
This is a blackout
I want to detonate

Sometimes I feel I'm getting stuck
Between the handshake and the fuck
Brain, brain, brain, brain
Okay
