

Demons

Candlelight Red

You come to me, with smoking guns
Everything you've ever done
I'm never wrong, I'm always right
Just as long as I never fight you
Disgrace is all I see
Never want to sacrifice your ways of showing me
The face that goes with the hate that blinds you.

Chorus

Run to me seeking protection
And you know I've tried
But your demons are all coming after you,
I feel, like a beat up doll
Come bite the hand that feeds
I've been waiting alone
To take a bite out of you.

Admit you're wrong, now do the time
you had your chance but temptation found you.
You crossed the line, you know im right
Now take the blame for the weight that drowns you

Chorus x 2

Run to me seeking protection
And you know I've tried
But your demons are all coming after you,
I feel, like a beat up doll
Come bite the hand that feeds
I've been waiting alone
To take a bite out of you.
